

Introductory programme

Nutraceuticals and Obesity

Vienna, Austria
Saturday 13th March 2010

Invitation

We cordially invite you to our next scientific conference, this time in Vienna, Austria.

Obesity counts unbridled among the major health problems of our age. The prevalence – and thus the associated sequelae and health expenditure – is growing all the time, in all age groups, including children. All this give us good reason to devote our attention to this subject and, true to the aims of our Association, under the spotlight of the value of nutraceuticals in obesity.

We will focus on topics as epidemiology and drivers of obesity, energy metabolism and micronutrients, obesity – inflammation – antioxidants and on the use of specific nutraceuticals in obesity like meal replacement, formula diet and nutrients that influence fat oxidation and satiety.

Again we will organise a poster exhibition and we encourage younger colleagues in particular to apply with a poster contribution. The best poster of all those submitted will be awarded a prize. For further details please check out our congress homepage.

Besides that the congress offers the opportunity to visit this unusual city with a wide range of cultural highlights.

So in this vein we are looking forward to seeing many of you again in Vienna.

The committee

Event Language

The language of the event is German and English. Simultaneous translation is provided.

Schedule

08.00 – 08.30	General Meeting of the European Nutraceutical Association (for members only)
08.45 – 13.00	Scientific Meeting (with a 30 minute coffee break and exhibition)
13.00 – 14.00	Lunchtime snack and Industrial Exhibition

Target Groups for this Event

Specialists who are concerned with the role of nutrition in prophylaxis and therapy, in theory and/or in practice, and especially with the importance of nutraceuticals in consultations (including medical doctors, nutritionists, dieticians, pharmacists, natural scientists and sports scientists).

Certification (credits for continuing education)

This event will be submitted for accreditation for continuing medical education (Medical Association of Vienna and European Union of Medical Specialists), pharmacists (Austrian chamber of pharmacists) and nutritionists (certified by the DGE [German Nutrition Society], VDD [German Association of Dieticians], VDOE [Association of Ecotrophologists], Diatologen [Austrian Association of Dieticians] and SVDE [Swiss Association of Dieticians]).
